Burj Khalifa 1, Mohammed Bin Rashid Boulevard, Downtown Dubai, UAE

At 2,722 feet, Burj Khalifa is world's tallest man-made structure. Standing tall & gloriously, this structure has been inspired by patterning systems integral to Islamic architecture. With its completion having coincided with the global financial crisis 2007-2012, it witnessed an alarming slump in its demand and prices, leading to a bailout from UAE's President Khalifa bin Zayed Al Nahyan, after whom it was eventually named. In fact, it is only now that its 900 apartments are getting occupied.

Given its stature, it's not surprising that Burj Khalifa has been the base for a number of unsanctioned adventure activities like Base jumping and climbing to its top. Marking its grandeur is the 902 feet long fountain that shoots water 490 feet up in the air to the accompaniment of 6,600 lights and Arabic and World music.

At Burj Khalifa's 124th floor, is set world's second highest outdoor observation deck, aptly named At the Top. Unfortunately, the deck is now closed to tourists. The building is set within a blooming 27 acre park, inspired by Hymenocallis, a desert flower.

While corporate offices and residential suites fill up most of the floors, on the 122, 123 & 124th floor you will come across a restaurant, Atmosphere, sky lobby and indoor & outdoor observation deck, respectively.
